Azeem Maqbool

Telecommunications Project Engineer

Melbourne, VIC | 0403 912 948 | azeeem.maqbool@gmail.com

Australian permanent resident | Full work rights | Victorian full driver's licence

Telecommunications engineer with 15+ years of international experience delivering mobile network and in-building coverage projects across the UAE, Oman and Pakistan. Experienced in IBC/IBS, active and passive DAS, 4G/5G, SRAN, commissioning, integration, site acceptance testing and technical troubleshooting. Based in Melbourne with Australian permanent residency and full work rights.

SELECTED PROJECT / ZAYED INTERNATIONAL AIRPORT

Delivered **16 passive SRAN/5G sites** and **one active 5G site** with **more than 100 pRRHs**, coordinating **eight teams** through completion.

RECENT EXPERIENCE

Nokia

Apr 2021 - Jul 2025

Telecommunications Project Engineer | United Arab Emirates

du IBS · 5G, SRAN, SWAP and DAS deployment

• Managed end-to-end wireless delivery across site acquisition, installation, commissioning, integration, testing and customer acceptance.

• Supervised four subcontractor crews and coordinated quality, safety, materials, BOMs/BOQs, progress reporting and stakeholder requirements.

• Resolved commissioning, IBS DAS and RF performance issues with NOC, RF and field teams.

LCC / Tech Mahindra

Feb 2019 - Mar 2021

Telecommunications Engineer | United Arab Emirates

Huawei-DuMBB · 3G/4G/5G network rollout

• Installed, commissioned and integrated Huawei 5900/3900 BBUs and RRUs for mobile network and IBS projects.

• Troubleshot network configuration, commissioning scripts, RTN 900-series microwave links, E-band and transmission equipment.

Huawei

Feb 2016 - Feb 2019

Implementation Team Lead | United Arab Emirates

Etisalat network modernization

• Prepared DAS plans and design proposals for GSM, WCDMA and LTE, supported by site surveys, coverage scans and walk-test reviews.

• Supervised installation, commissioning and integration of Huawei BTS and RF equipment; coordinated logistics, subcontractors, customer ATPs and BSS support.

Huawei

Apr 2014 - Feb 2016

Integration Engineer / IBS Designer | United Arab Emirates

Huawei-DuMBB · IBS design and integration

• Led IBS design, site surveys and site acceptance testing for GSM, WCDMA and LTE networks.

• Supervised Huawei BTS and RF installation, managed field teams and subcontractors, and maintained implementation databases and technical change requests.

Experience & qualifications

EARLIER EXPERIENCE

LCC

Mar 2011 - Aug 2013

Support Engineer | Oman

Huawei-Omantel · RF engineering, 2G/3G/LTE. Performed drive testing, post-processing, network audits, coverage analysis, benchmarking and parameter optimization. Conducted single-site verification, voice and video testing, R99/HSDPA checks and cluster analysis.

Saudi Networkers Services

Apr 2010 - Dec 2010

Project Coordinator | United Arab Emirates

Huawei-du · 3G rollout. Coordinated site teams and communication between customers and technical teams, overseeing installation and commissioning of Huawei NodeB and microwave equipment.

Saudi Networkers Services

Sep 2009 - Mar 2010

Telecom Implementation Engineer / Team Leader | United Arab Emirates

Telecommunications implementation and field team leadership. Worked on telecom implementation and led field teams for network delivery.

Symbia

Jan 2008 - Aug 2009

Technical Support Engineer | Lahore, Pakistan

BTS and microwave deployment. Supported BTS installation, integration, commissioning and microwave link deployment.

Foresight Communication

Aug 2006 - Dec 2007

BSS Engineer | Lahore, Pakistan

ZTE-China Mobile (Paktel) project. BSS engineering for the ZTE-China Mobile (Paktel) project.

OTHER PROJECT DELIVERY

Reem Mall, Mubadala, Al Wahda Mall, General Secretariat, Abu Dhabi Mall, Four Seasons Hotel, World Trade Center Mall, Marina Mall, Cleveland Clinic Abu Dhabi

TECHNICAL SKILLS & EQUIPMENT

IBC/IBS and active/passive DAS · 5G NR, LTE, WCDMA, GSM and SRAN · Site surveys, scoping and inspections · Commissioning, integration and SAT · RSSI, RSRP, SINR and non-serving cell troubleshooting · BOM/BOQ and materials coordination · Field teams and subcontractor supervision · Project reporting and stakeholder coordination · Quality assurance and site safety

Nokia AirScale; Huawei BTS 3900/5900, BBU, UMPT, UBBP, UBRI and RRUs; Huawei RTN 900 series and E-band; NEC microwave; Vertiv and Eltek.

EDUCATION & PROFESSIONAL ASSESSMENT

Telecommunications Engineering | 2001-2005
Preston Institute of Management Sciences & Technology, Pakistan
Engineers Australia skills assessment: Telecommunication Engineer

TRAINING & CERTIFICATIONS

Nokia AirScale Power Rectifier & Energy Solutions (2023)

Safety Planning & Control Gate Checks (2023)

Acceptance Closeout Supervisor curriculum (2023)

HSE-LOTO Training (2021)

PDO-HSE, H2S Awareness & Permit, First Aid (2011)
